TOOLS & TECHNOLOGIES

- Programming : Java (Core Java)
- Automation Tools : Selenium WebDriver
- Performance testing tools : Jmeter , Load runner .
- API Testing : Postman
- Test Frameworks : TestNG
- Build & Dependency : Maven
- Design Pattern : Page Object Model (POM)
- Test Management : Test Case Design, Test Scenarios, Test Data Creation
- Defect Tracking : JIRA
- CI Awareness : Test suite execution & build validation

AREAS OF EXPERTISE

- Manual Testing (Functional, Regression, Sanity, Smoke, Retesting)
- Automation Testing (Selenium WebDriver with Java)
- Performance Testing(Jmeter)
- UI & Web Application Testing
- Agile / Scrum Testing
- Defect Lifecycle Management
- Test Planning & Test Design

COMPUTER KNOWLEDGE

- Web & Client-Server Application Testing
- Browser Compatibility Testing (Chrome, Firefox, Edge)
- Basic SQL (data validation)
- MS Excel (test data, defect tracking)
- SDLC & STLC understanding

INTERPERSONAL SKILLS

- Strong analytical and problem- solving ability
- Excellent verbal and written communication
- Team-oriented with effective collaboration skills
- Proactive and quick learner
- Ownership mindset with strong accountability
- Ability to work under tight deadlines

EDUCATION

- B. Tech | JNTU University | Nalla Malla Reddy Engineering college

LANGUAGES

- Telugu
- Hindi
- English
- Russian

JOB EXPERIENCE

PIRNAV SOFTWARE SOLUTIONS – Associate Software Engineer - SEPT 2025 – Till Now

PROJECT 1: AI Content Generator – Web Application Automation Testing : AI-based web application used to generate blogs, emails, product descriptions, and social media content based on user-defined configurations such as tone, length, keywords, and language.

Roles and Responsibilities:

- **Analyzed business requirements, user stories, and UI designs to understand application workflows**
- **Designed and executed manual test cases covering functional, UI, and validation scenarios**
- **Tested user authentication, content configuration forms, AI content generation, and content history modules**
- **Validated AI-generated content for accuracy, relevance, formatting, and usability**
- **Performed Smoke, Sanity, Regression, and Re-testing cycles**
- **Automated critical user flows including login, content generation, and export using Selenium WebDriver with Java**
- **Implemented automation using Page Object Model and TestNG framework**
- **Performed cross-browser testing and responsive UI validation including dark mode**
- **Logged, tracked, and closed defects using JIRA and collaborated with developers for fixes**

Tools and Technologies: Selenium WebDriver, Java, TestNG, Maven, JIRA, Postman, Git

PROJECT 2: CA Firm Management & Compliance Automation System : Enterprise web application designed to automate and manage client data, compliance tracking, statutory filings, billing, document management, and reporting for Chartered Accountant firms.

Roles and Responsibilities:

- **Analyzed functional requirements and prepared detailed test scenarios and test cases**
- **Performed functional, regression, and UI testing across modules**
- **Tested role-based access control for Admin, Staff, and Intern users**
- **Validated compliance workflows for GST, Income Tax, TDS, and ROC filings**
- **Tested compliance calendars, due-date alerts, and filing status tracking**
- **Verified invoice generation, GST calculations, and PDF downloads**
- **Performed API testing using Postman for backend validation**
- **Validated data consistency and integrity using PostgreSQL queries**
- **Logged defects in JIRA and worked closely with development teams for resolution**

Tools and Technologies: Selenium WebDriver, Java, TestNG, JIRA, Postman.

GRAYRADIANT DATA SERVICES PVT LTD – Junior Tester - JUNE 2024 - AUGUST 2025
Project: Empire Home - CRM Application

Tools Used: Selenium, Java, TestNG, Maven, JIRA, MS Excel

Responsibilities:

- Analyzed business requirements and prepared **positive & negative test scenarios**
- Designed and executed **manual test cases** from an end-user perspective
- Automated test scripts using **Selenium WebDriver**
- Performed **Regression, Sanity, Smoke, and UI testing**
- Participated in **Scrum ceremonies**: sprint planning, daily stand-ups, retrospectives
- Logged, tracked, and closed defects using **JIRA**
- Prepared test reports and shared execution status with stakeholders

DECLARATION

I hereby declare that all the forgoing information is correct and complete to the best of my knowledge, and nothing has been concealed.
